

MD SAKIBUR RAHMAN

MERN Stack Developer | React.js | Next.js | Express.js

Dhaka, Bangladesh | +8801759789659 | sakiburrahman5978@gmail.com | [Linkedin](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Passionate and detail-oriented MERN Stack Developer with hands-on experience in building responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing full-stack solutions, RESTful APIs, authentication systems, database management, and modern frontend interfaces. Strong understanding of JavaScript, ES6+, Git, and responsive design principles. Eager to contribute technical expertise and problem-solving skills to innovative software development projects while continuously learning new technologies.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript ES6+, React.js, Next.js, React Router, Context API

UI / Styling: Tailwind CSS, DaisyUI, Hero UI, Framer Motion, Responsive design, accessibility

Backend / MERN: Node.js, Express.js, MongoDB, REST API, CRUD, JWT, BetterAuth, server-side validation

Forms / Data: Axios, Fetch API, React Hook Form, filtering, search, protected routes, role-based UI, error handling

Tools / Deployment: Git, GitHub, Vercel, Netlify, Render, npm, Chrome DevTools, Figma-to-code, ESLint, Prettier, VS Code

AI Workflow: ChatGPT, Gemini, GitHub Copilot, Cursor, Antigravity, prompt engineering, AI-assisted debugging, README writing, test-case generation

PROJECTS

ReSell Hub – Second-Hand Marketplace Platform | *Next.js, Express.js, MongoDB, Better Auth, JWT, Stripe, Tailwind CSS*

[Liveliink](#) | [GitHub](#)

Secure Authentication — Better Auth with Email/Password & Google OAuth. JWT-secured sessions with role-based access (Buyer, Seller, Admin).

Product Marketplace — Browse second-hand items with search, category filters, price sorting, and pagination. Detailed product views with availability status.

Role-Based Dashboards — Buyer (orders, wishlist, Stripe checkout), Seller (add/edit products, manage orders, sales analytics), Admin (approve/reject listings, user management, revenue tracking).

Secure Payments — Stripe integration with transaction history, payment confirmation, and order tracking.

DriveFleet-Car Rental Platform | *Next.js, Node.js, Express.js, MongoDB, BetterAuth, JWT, Tailwind CSS*

[Liveliink](#) | [GitHub](#)

Secure Authentication — Users can register and log in securely using Better Auth. Sessions are managed with JWT tokens to protect private routes and API endpoints.

Browse & Book Cars — Users can explore a wide range of available cars with detailed information including brand, category, price per day, and availability status. Booking is just a few clicks away.

My Bookings Dashboard — Each user has a personal bookings dashboard where they can view all their active and past bookings with trip details, dates, and pricing — and cancel bookings if needed.

QurbaniHut - Livestock Booking Platform | *Next.js, Node.js, Express.js, MongoDB, BetterAuth, JWT, Tailwind CSS*

[Liveliink](#) | [GitHub](#)

Animal Marketplace — Explore detailed listings of cows, goats, and sheep featuring high-quality images, breed information, weight details, and location-based availability.

Personalized User Profiles — Easily manage and update profile information, including name and profile picture.

Secure Route Protection — Implemented proxy-based authentication and authorization to ensure secure access to protected pages.

Fully Responsive Interface — Optimized user experience across desktops, tablets, and mobile devices with a modern responsive design.

KeenKeeper – Friend Activity Tracker | *React.js, Tailwind CSS, React Router DOM, Context API, Recharts, React Toastify*

[Live Link](#) | [GitHub](#)

Activity Tracking System — Track and manage interactions with friends, including calls, text messages, and video chats through an intuitive activity logging system.

Advanced Filtering — Filter activities by Call, Text, or Video categories to quickly find and analyze specific interaction types.

Interactive Analytics Dashboard — Visualize communication patterns through dynamic pie charts powered by Recharts, providing insights into activity distribution.

State Management with Context API — Implemented centralized state management using React Context API for efficient data handling across the application.

Responsive User Experience — Built a modern, mobile-friendly interface with Tailwind CSS and integrated toast notifications for instant user feedback.

EDUCATION

B.Sc. in Computer Science And Engineering - Daffodil International University

2023- Present

CERTIFICATIONS & LANGUAGES

Languages: Bangla - Native; English - Professional working proficiency, comfortable with technical documentation, email communication, standups, and interview practice.

Soft Skills: Problem solving, self-learning, technical documentation, team communication, feedback handling, deadline ownership, and recruiter-ready project presentation.
