SUMMARY

Passionate and detail-oriented MERN Stack Developer with hands-on experience in building responsive and scalable web applications using MongoDB, Express.js, React.js, and Node.js. Skilled in developing full-stack solutions, RESTful APIs, authentication systems, database management, and modern frontend interfaces. Strong understanding of JavaScript, ES6+, Git, and responsive design principles. Eager to contribute technical expertise and problem-solving skills to innovative software development projects while continuously learning new technologies.

EDUCATION

BSC in Computer Science And Engineering

Daffodil International University

2023 – Present

Dhaka

Higher Secondary Certificate (HSC)

Milestone College

2022

SKILLS

Frontend:

React.js, Next.js, Tailwind CSS, Hero UI, Daisy UI

Backend:

Node.js, Express.js, RESTful APIs

Databases:

MongoDB

CI/CD:

Git, GitHub

PROJECTS

DriveFleet – Car Rental Platform 📄

A modern car rental management platform with real-time availability, booking management, and seamless experience for renters and fleet managers.

Secure Authentication — Users can register and log in securely using Better Auth. Sessions are managed with JWT tokens to protect private routes and API endpoints.

Browse & Book Cars — Users can explore a wide range of available cars with detailed information including brand, category, price per day, and availability status. Booking is just a few clicks away.

My Bookings Dashboard — Each user has a personal bookings dashboard where they can view all their active and past bookings with trip details, dates, and pricing — and cancel bookings if needed.

Tech Stack: Next.js | MongoDB | Express.js | JWT | Tailwind CSS

QurbaniHat – Livestock Booking Platform 📄

An online marketplace for Qurbani season livestock booking with category browsing, seller management, and secure order processing.

Animal Listings — Browse cows, goats, and sheep with images, weight, breed & location

User Profile — Update name and profile photo

Protected Routes — Proxy-based route protection

Responsive Design — Works on all devices

Tech Stack: Next.js | MongoDB | Express.js | JWT | Tailwind CSS
